

SUNSHINE CLUBHOUSE

(Before/after school for
elementary grades 1 through 5)

The Sunshine Clubhouse is a warm and welcoming extension of the elementary school day. Students, whether they arrive before or after school, enter into a calm and engaging space that nurtures their emotional, social, and creative development.

The morning session enables students to get ready for their school day. Free choice activities—such as playing games, building, drawing, reading/writing, or imaginative play—give them the chance to explore at their own pace.

For children attending the after-school program, the Sunshine Clubhouse transforms into a place for releasing energy, relaxing, and making connections with their peers. We provide both indoor and outdoor environments for children to participate in activities packed with learning, exploration, and fun. We inspire and encourage children to thrive intellectually, socially, and spiritually.
